SKILLS

- **Programming Languages** : Javascript, PHP, Python
- **Backend Technologies** : Node.js, Express.js, PostgreSQL, MySQL, Odoo, CodeIgniter
- **Frontend Technologies** : React.js, CSS, SASS, Bootstrap
- **Cloud Providers** : AWS, Google Cloud
- **Languages** : Arabic : Native; French, English : Fluent; Swedish : Beginner

SOME SIDE PROJECTS I WORKED ON

- **Job board website (in progress)**: Frontend done with React.js and backend done with Node.js and Firebase
- **Video search engine**: Web app done with React.js + Javascript + HTML + CSS

EXPERIENCES

- **DXC Technology** Rabat, Morocco
Software Engineer Oct 2018 - Jun 2019
 - I worked at DXC Technology as a consultant for the IT department of a big french client in the construction industry. My job was to develop and deploy new features on their Peoplesoft ERP system. I used the Peoplesoft tech stack during this work.
- **Ismail Tlemcani** Rabat, Morocco
Freelance Web Developer + OSS Contributor Aug 2017 - Sep 2018
 - Independent Web developer for local and foreign clients + contributor to open source projects. The tech stack used on the Frontend was React.js and on the Backend was Node.js for some projects and the Python framework "Odoo" for some projects.
 - Some of the projects I worked on : CRM Web app for sport clubs, Management web app for a sport federation
- **VIKAT** Kenitra, Morocco
Web Developer Sep 2016 - Jan 2017
 - VIKAT is the leading factory of concrete precast products in Morocco. I worked there as a web developer and my job was to develop additional features for the ERP of the company. The tech stack used was mainly around Javascript and Python.
- **Hmizate.ma** Casablanca, Morocco
Web Developer Intern Feb 2016 - Jun 2016
 - Hmizate.ma is the leading daily deal website in Morocco. I developed a web app that was displaying a live reporting for the partner's website. I used the framework PHP/CodeIgniter during this work.

EDUCATION

- **Mälardalen University** Västerås, Sweden
Master's program in Software Engineering (Swedish Magister degree) Sep 2019 - June 2020
- **Lycée Moulay Youssef + Institut National des Postes et Télécommunications** Rabat, Morocco
Master's degree in Engineering with specialization in Information Technology Sep 2009 - June 2016
 - I followed the French engineering study system composed of 2 years of intensive scientific courses mainly focused on Mathematics and Physics "Classes Prépas" + 3 years of engineering studies in which I specialized in Information technology at the top ranked engineering school "INPT".
